Dr. Sharmila, Senior

An investor awareness webinar was organised by Dogra Group of Colleges (Dogra Degree College, Dogra College of Education & Dogra Law College) in collaboration with Association of Mutual Funds in India (AMFI) on "Financial Empowerment Through Health Creation".

Sri Surya Kant Sharma, Senior Consultant AMFI, who was keynote speaker in the webinar at the outset touched upon the importance of financial security of individuals. He emphasized that an investor should first think and ensure adequate life insurance, reasonable medical insurance cover and an emergency fund before embarking upon the journey of wealth creation through sustained investments which is most essential for prosperity. He then made a vehement plea for regular savings and increase of savings every year minimum by 10%. He also dealt in detail on the need for wealth creation for prosperity and emphasized that investors should not be money accumulator but wealth creator which only would make them comfortable with regard to their money needs for their milestones in life.

He even advised participants that they should look at real return and not on nominal return as inflation and tax liability substantially takes away major portion of nominal return. He cautioned participants that most of the investments except in governmental schemes have risk but risk can be managed by simple formula - Think, understand and invest. He further emphasized the need to have financial planning of their families in place for focused investment and also the need for practicing rule of compounding in investments for higher return in long run.

He then shared basic information on various investment avenues available in the market viz. Government/GSI bonds, corporate bonds, Government schemes (Post office schemes, PPF, NPS, Sukanya Samridhi Scheme, securities market etc. real estate, gold and securities market. All these avenues are different and have distinct features and investors should invest their hard earned money according to higher risk appetite and time horizon of investment.

Sri Sharma cautioned general investor not to enter into securities market directly as there are inherent risks in the market and unless the investor have sound knowledge of market, sectors, economy, international economy etc. he should desist from entering into the market directly. Instead, mutual funds are the best option available for general investor wherein he/she can invest a minimum amount of Rs.500/- through Systematic Investment Plan (SIP) and build a good corpus over a period of time. He also mentioned that in mutual funds there are number of schemes as per risk appetite and time horizon of investors. There is a wide spectrum of mutual funds schemes ranging from equity funds to debt funds to exchange traded funds which can be chosen by an investor as per his risk appetite and investment horizon.

At the end, he emphatically cautioned participants not to invest their hard earned money on the advice of others including agents and never in unregulated fund mobilisation schemes - Ponzi scheme, chit funds and committees etc. - which give assurance for higher and quick return at the beginning but ultimately vanish with the hard earned money of investors. Not so affluent class of investors are more susceptible to such schemes and we all have a social responsibility to make them aware about the menace of such schemes and impress upon them not to invest their money in such schemes. He also informed that as per a survey, investors have lost more than ten lakh crores of rupees in such unregulated fund mobilisation schemes. After this, there was a session on National Pension Scheme (NPS) where features of NPS were shared by the invited speaker.

After the sessions, a question answer session was made open for the participants and participants asked lot of questions on personal finance which were satisfactorily answered by the experts. The informative session had a over whelming response of around 1000 registrations and the session was conducted on the virtual Zoom platform.
