NOTE:

1. Data is the lifeline of every educational institution. Right from the student turnover rate to the financial records, every piece of data that is/was ever associated with the college paves way for its development. The bigger the institution, the greater the volume of data, which makes it challenging to manage on paper or even with excel files through SWOT Analysis. (S-Strengths, W-Weaknesses, O-Opportunities, T-Threats). SWOT Analysis - A strategic planning techniques used to help a person or organization to identify strengths, weaknesses, opportunities and threats related to proper planning in different areas of the institution.
2. MIS Objective : SMART (S-Specific, M-Measurable, A-Achievable, R-Results, T-Time Bound)
